## VESTEL Hospitality TV Solutions

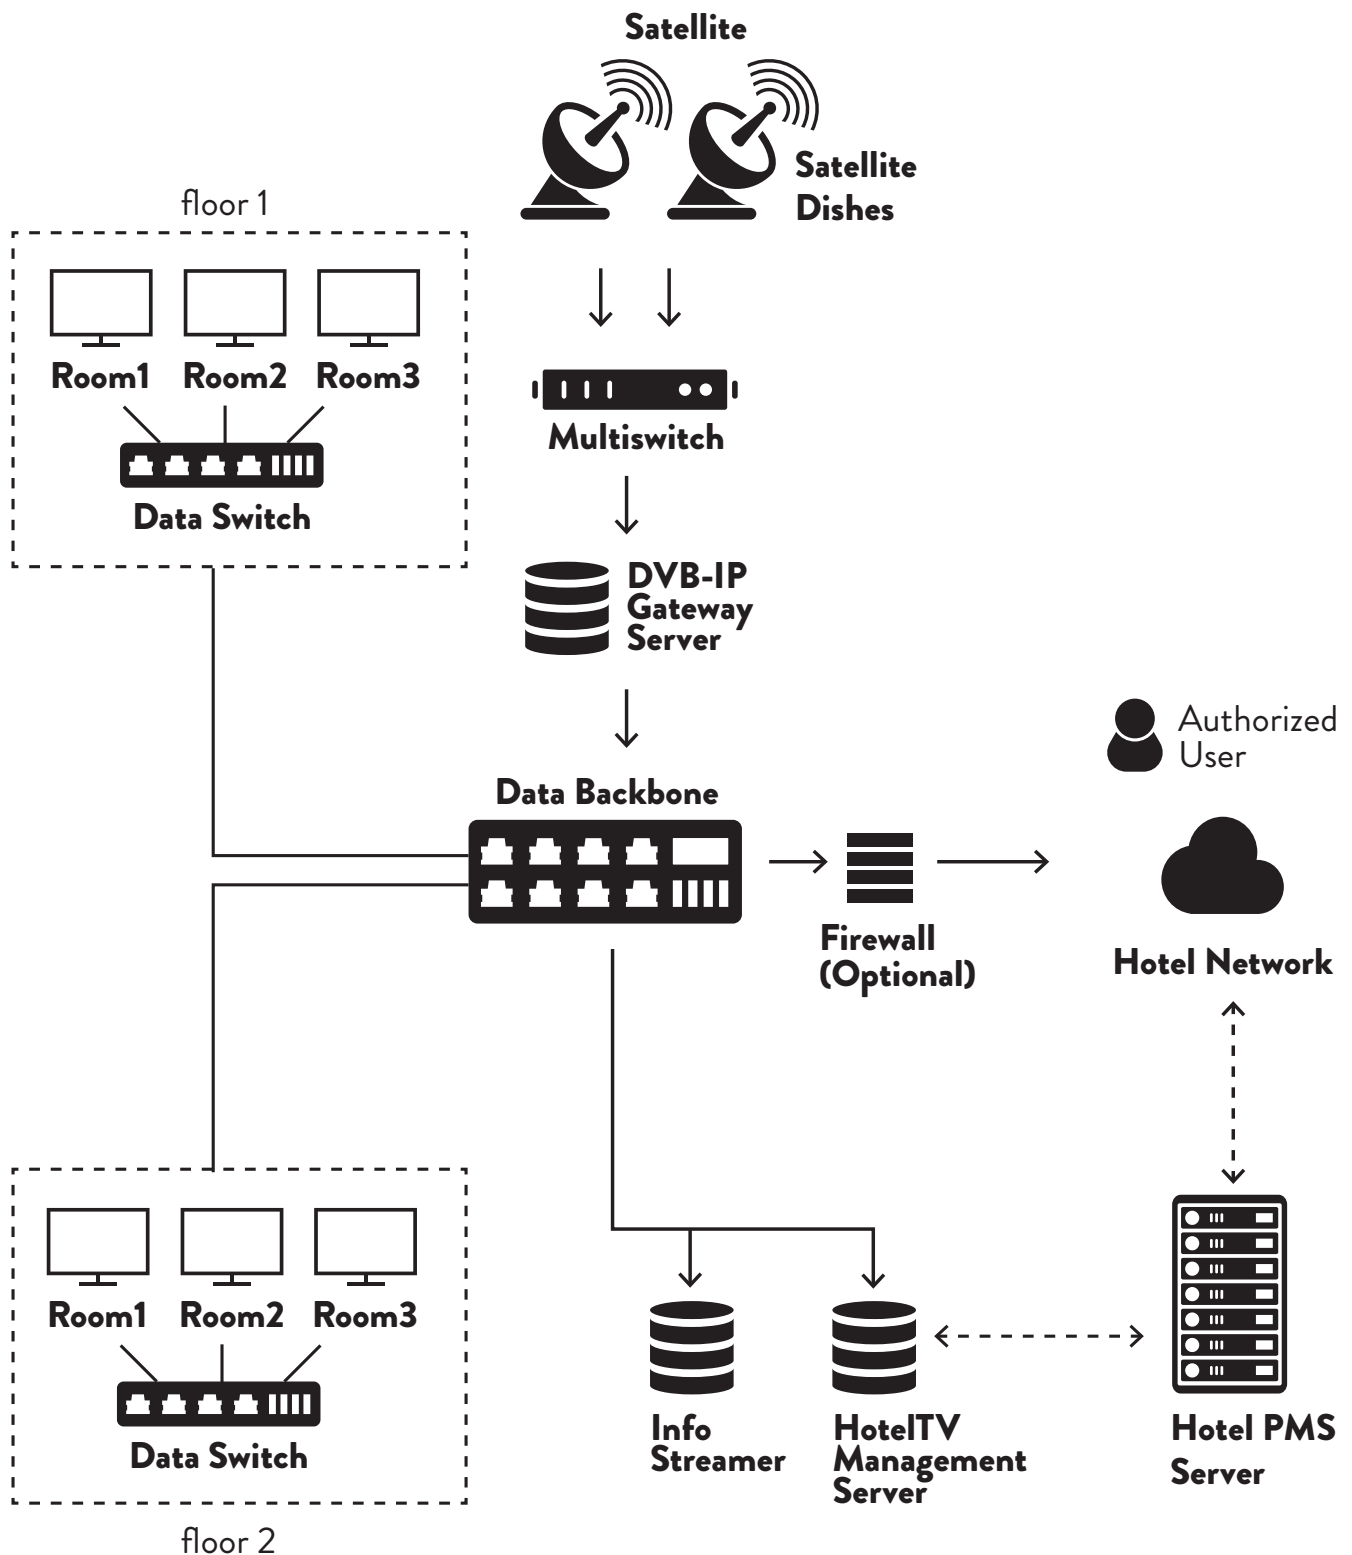

### Perfect Your Guests' Experience

***Our HotelTV solution will help to strengthen and enhance your business with minimal costs. We provide dynamic and essential service management tool and our professional technical support team provides setup and maintenance services at your convenience.***

Hospitality TV brings ultimate entertainment to your room. Our TVs will enhance the perception of your hotel and measure up to the standards of your affluent guests. We will provide you the best picture quality with sharper edges, more distinct images, more vivid colors and smoother look for fast moving objects. Your guests can view photos, listen to music or watch movies stored on the USB and will also find simplified remote control with multiple functions quite convenient. You will enhance the perception of your hotel and measure up to the standards of your affluent guests.

# Architecture

## IPTV Solutions Overview

# IPTV Solutions

VESTEL Digiguest IP HotelTV will help to strengthen and enhance your hospitality business with a user friendly service management tool. Our Smart Solutions focus on three core areas essential to the hospitality industry; entertainment, convenience, and efficiency. According to these

- » Data Privacy
- » Corporate User Interface & Advertisement
- » Enhanced Channel List Management
- » Simplified Remote Management Options
- » Built-in Set-Top-Box

ideas, we have developed and evolved a number of unique features that are built into the Vestel HotelTV. These features are designed to boost operational efficiencies, so you can focus more effort on your business-building initiatives.

- » SoftAP (Access Point) Feature
- » PMS Integration & Check In & Welcome Page
- » Information Services & Smart Apps
- » Hospitality Configurations
- » Professional Technical Support

## **DIGIGUEST IP HotelTV**

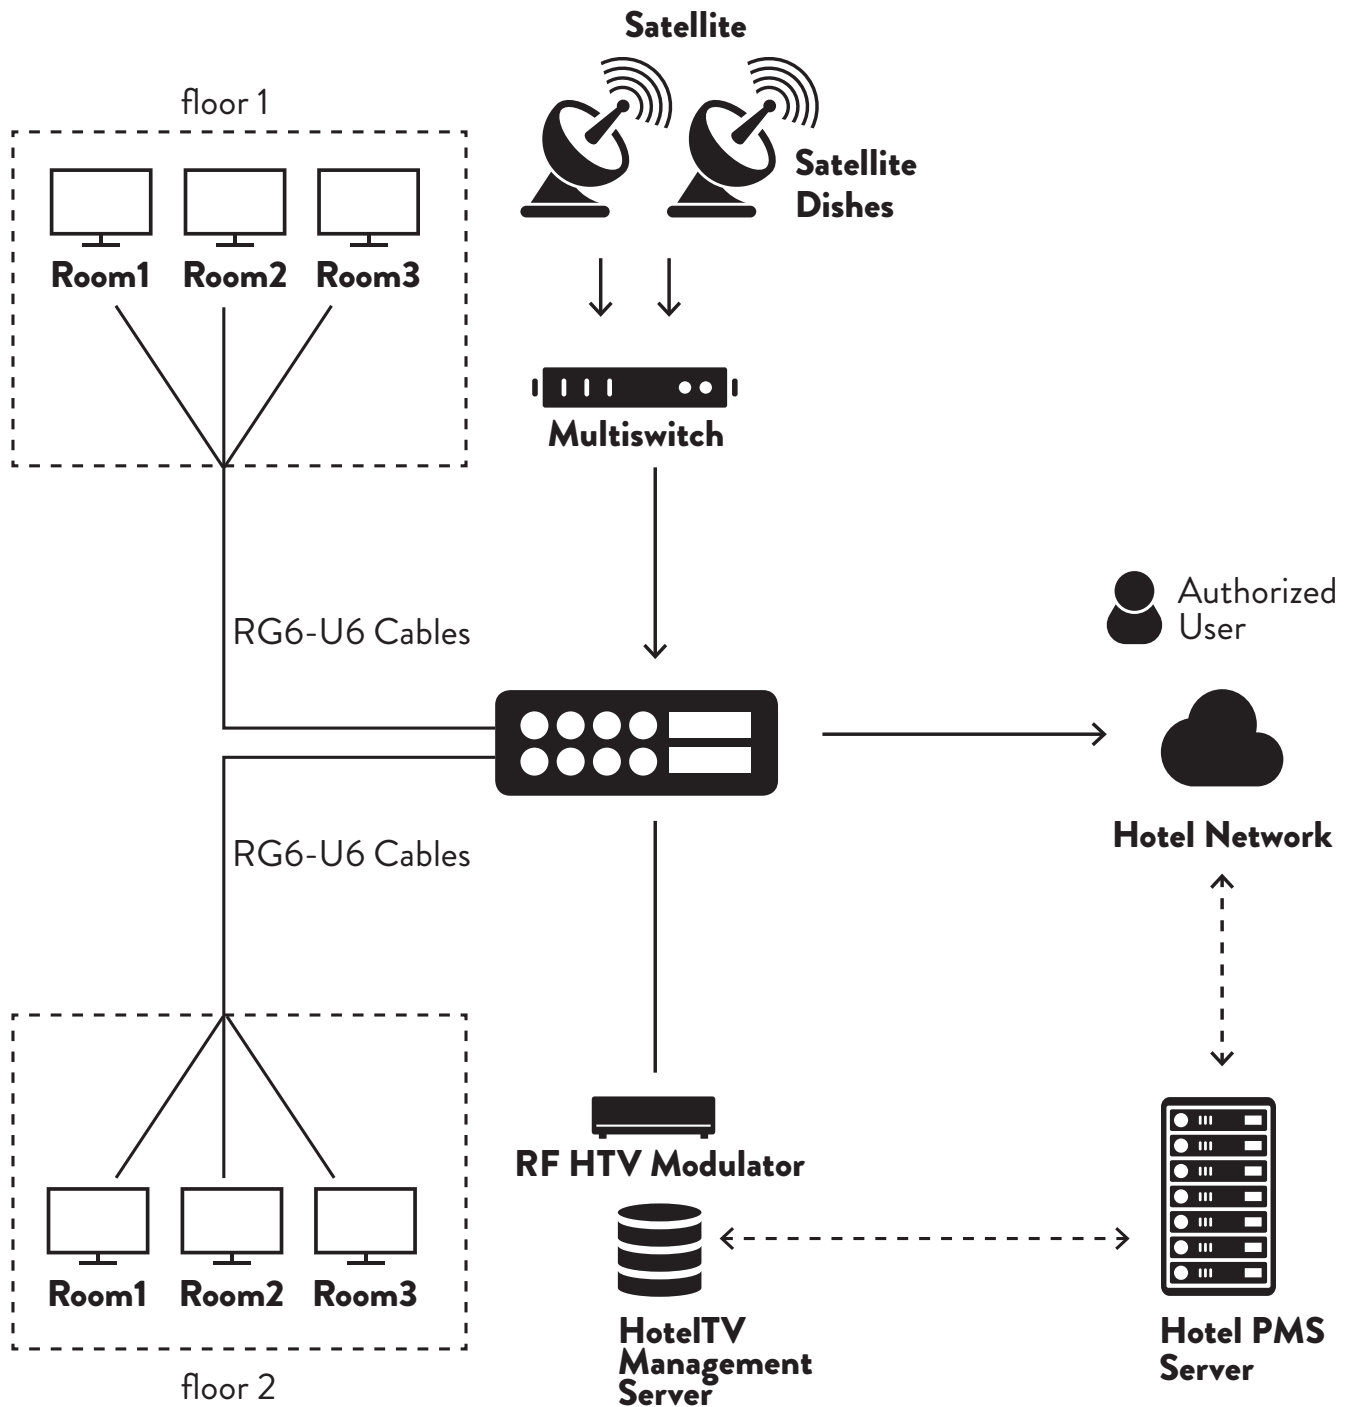

- » On-Premise OR Cloud deployment options
- » Single point control for different branches
- » Server connection independency for TVs (cache mode)
- » Server – TV communication runs over IP
- » Data mining and statistics using per location/branch or over a cumulative brand scope
- » Property Management System (PMS) integration, Welcome Message, Channel sorting by nationality
- » Flight info, Finance, Weather, Feeds
- » Where am I, Nearby Events, Maps Integration
- » Room Service Order
- » Up to 30 Free Infotainment Channels

## **DIGIGUEST IP Hospital TV**

- » On-Premise OR Cloud deployment options
- » Health care specific user friendly interface
- » Special content customized for each patient
- » Patient specific medicine, healthcare and diet plans
- » Fast feedback capabilities from patient to hospital
- » Healthcare specific multimedia content interfaces
- » Quality polls for patient healthcare service
- » Messages service

# Architecture

## RFTV Solutions Overview

# RFTV Solution DIGIGUEST Coax HotelTV

Digiguest Coax HotelTV is an affordable solution for displaying hotel information, targeting corporates without reliable data & networking infrastructure. It helps hoteliers leave a great impression upon their guests by giving high quality and dedicated service without sacrificing many aspects of IP HotelTV solutions. Once the desired information is created, it can be streamed to all TVs via a single RF frequency. It is designed for low power consumption delivering big and bright images at low installation cost.

- » Server – TV communication runs over RG6-U6 infrastructure, using DVB-T protocol
- » Alternative to IP based Hospitality TV solutions
- » Independency from internet connection
- » Property Management System (PMS) integration, Welcome Message
- » 1 Infotainment channel support
- » Shopping experience with a QR scanner mobile application

# Standalone Solution DIGIGUEST Basic HotelTV

## DIGIGUEST Basic Hotel TV

*Digiguest Basic HotelTV is the least costly choice compared to the other solutions such as IP or Coax, as remote management options and scalability are no more available. However you may still need a configurable & upgradable TV. With Digiguest Basic HotelTV, you will still benefit from cached user interface and prefilled information. This mode also allows you to upgrade to IP or Coax modes or a 3rd Party Hospitality Software anytime with license upgrade.*

## Why do you need Basic HotelTV?

- » Works as standalone, with customizable embedded UI.
- » Welcome Screen with language page, Channel Sorting and data privacy
- » Upgradable to IP & Coax Modes with license key
- » API/SDK support 3rd Party Hospitality Software
- » Soft AP (Access Point) and Smart Apps are activated if connected over Ethernet or Wi-Fi.

## Innovative User Experience

Vestel Hospitality TVs offers significant flexibility to design a Corporate User Interface for your needs. Advancing technologies in HTML and Browser standards provide better user experience, smoothness and functionality. UI/UX Editor software allows you to encolour, sort, replace and add new menus according to your pleasure and corporate requirements.

### **Express check in/out – PMS Integration**

The hoteliers can manage automated data exchange with PMS in order to ensure correct guest data to be present in Hospitality Interactive HotelTV System, to activate TV-set and welcome message before guest enter the room for the first time.

### **Triple Tuner + IP Streaming + Content Distribution**

The system provides the opportunity to select RF tuner and/or IP streaming to watch TV channels. IP streaming is performed via DVB-to-IP Gateways which have digital and analog input interfaces. Triple RF tuner allows guests to enjoy terrestrial, cable and satellite (DVB T2/C/S2) channels. Hybrid solution is also possible, such that system infrastructure enables IP communication for enhanced interactivity, but TV channels may be distributed over coaxial cables.

## Interactive Services

Vestel HotelTVs can be used to extend IP or Coaxial solution's capabilities if internet connection is available. Simply adding additional benefits with smart applications YouTube, Netflix, Amazon Prime will be provided. The hospitality solution gives you full flexibility where to locate these apps, even in homepage. There are also predefined information services: About Hotel, Weather Forecast, World Clocks, News, Exchange Rates, Landmarks, Nearby Attractions, Flight Info, Telephone list and Custom Sliding Pages for guests to find out useful information about the place they are staying.

### About The Hotel

Basic hotel information is displayed for guests.

### Hotel Activities

You can easily inform your guests about your hotel activities with Vestel HotelTV Interface.

### Essential Phone Numbers

### Current Exchange Rates

Thanks to current exchange rates property of Vestel HotelTV, your guests check quickly and easily current exchange rates information which is collected from the Central Bank of the Republic of Cyprus.

# Interactive Features and Guest Convenience

## Smart TV

Vestel Smart TV allows you to access all kinds of content with a simple click of your remote control. Through apps available on our platform you can stream music, videos and movies in real time. You can watch the missed episodes of your favorite TV shows via catch up services; you can rent the latest movies or watch internet videos. Moreover, you have access to many online applications in various categories such as news, sports, games, weather, entertainment, social networks and more. Featuring an app-first interface, Vestel Smart TVs allow you to customize the launcher of your TV in any way you want – all to provide a faster access to your favorite apps and content!

## NETFLIX

Netflix is the most famous and essential VoD provider to watch movies and TV shows over internet connection. Vestel Smart TV enables you to watch thousands of movies and TV shows anytime you want and as much as you want via Netflix service. Having access to incredible world of TV episodes and movies, Vestel Smart TV instantly transforms your living room to a movie theater or a TV studio!

## YouTube

Youtube is the world's biggest and most popular video sharing platform. The latest and greatest music videos, trends and channels are in here. You can also synch your mobile device to the app and enjoy the content. Being the most used app on Smart TVs through out the world, Youtube is essential.

## prime video

Prime Video is the Video on Demand service developed, owned and operated by Amazon. It offers television shows and films for rent or purchase as well as a selection of Amazon Studios original content and licensed acquisitions. You can get access to Amazon's carefully curated and steadfastly expanding content with an Amazon Prime or Prime Video Membership. As a close partner of Amazon, Vestel Smart TVs bring the Amazon experience to your living rooms at your fingertips or through your voice!

# Better Picture Quality

## MEMC

Algorithm to overcome the motion blur effect. MEMC technology detects movement patterns of the objects and apply interpolation between pixels, providing much more smooth video experience.

## HDR 10

HDR10 is the current industry standard for High Dynamic Range in consumer televisions. This “open” format technology is the first generation, considered a starting point for High Dynamic Range. High Dynamic Range allows for video and still images with much greater brightness, contrast, and better color accuracy than what was possible in the past.

Standard Technology

HDR Technology

## Micro Dimming

Algorithm for better contrast and vivid picture quality. This is provided by deep analysis of each pixels, realizing dark and bright regions and applying separate backlight.

## Super Resolution

Algorithm to solve the artifacts of low resolution video upscaling.

## Dolby Atmos Ecosystem

### Content

Dolby has built relationships with studios and creatives

### Creation Tools

Spec mixing studios integrated Atmos into content creation

### Cinema

More than 6000+ screens and 240+ Dolby Cinema's have atmos.

### Distribution Tools

HW & SW tools and audio codecs created for delivery

### Distribution

Atmos enabled on linear, VoD and OTT services

### Playback

Device manufacturers decode codecs for the Atmos experience

*A consumer can experience Dolby Atmos in the cinema and get that same Dolby Atmos experience in the home like no other sound solution.*

### Dolby Atmos for TVs

A TV with front or down-firing stereo speakers using Dolby Atmos immerses you in your favorite entertainment with sound that moves all around you with breathtaking realism.

# Dolby Audio

Improves the audio experience for speaker playback.

## Speaker Virtualizer

## Headphone Virtualizer

## Virtual Bass

## Dolby Audio Processing Engine

Dolby Audio Processing (DAP) is a suite of post-processing technologies designed to improve the audio playback experience on a TV using TV speakers.

Surround Virtualizer + Upmixer

Media Intelligence

# Multiscreen Technology

*Vestel Smart TV allows you to use your compatible devices (tablet pc and smartphone) by synchronizing them with your Smart TV. You can control your Smart TV with your mobile devices wirelessly, you can send multimedia contents from your devices to your TV in order to view them on TV screen and transfer TV stream to your companion devices to watch the stream on device simultaneously.*

## *Wireless display*

Wireless display feature allows mirroring the screen of your compatible Android device to stream videos up to 1080p on your Vestel Smart TV. While you are streaming a video on your smartphone, you can simultaneously mirror the screen of Android device on your wider Smart TV screen to enjoy detailed and higher quality pictures on TV without using any cable. Moreover, it is possible to send up to 5.1-surround sound that enables you to experience high quality sound as well. Besides, you can just share the home screen of your device, to scroll between the apps on your Android device. Directly connect mobile device

to your TV and get a new perspective on sharing! Besides, wireless display technology allows users to send stream, photos, music, videos and apps from compatible Intel based PCs or portable devices to your wireless display compatible Vestel TV wirelessly. You can send up to 1080p video and 5.1 surround sound and have the opportunity to display the stream or multimedia contents on the bigger screen of TV with excellent picture and sound quality. You don't have to stick to little screen of your PC or portable device anymore. Just enjoy the new entertainment experience on your TV!

You can use your phone, tablet, or computer to control supported applications on TV. This feature of Youtube application helps the user to connect their personal accounts to their Smart Tv only with a few clicks. You will have the comfort and efficiency of your mobile devices while watching the content desire on your Smart Tv. Just make sure your phone, tablet, or computer is connected to the same Wi-Fi network as your TV device. You also have the option to link with a TV code.

### **EPG**

EPG (Electronic Program Guide) data provides necessary information to viewers about TV broadcast prograing and program schedule for current and upcoming programs. Smart Center app will provide you broadcast schedule data and you will be aware of TV programs in details such as cast and crew. Moreover, you will be able to set reminders to watch your favorite programs as well as recording on time schedule of programs based on EPG data.

### **Portal launcher**

Viewers can launch Smart TV Apps from personal tablet PC. Without using classical remote control, via Smart Center, you can connect your mobile device to your TV and directly launch various Smart TV apps and open browser by using your mobile device.

### **Media share**

Via Smart Center, it is possible to send music, pictures and videos from your mobile device to your Smart TV by swiping over DLNA protocol and view them full size on your Smart TV to enhance your viewing experience. For instance, you can display your holiday photos together with your family on your big screen quality Smart TV with a simple swipe movement.

### **TV programs and vod (video-on-demand)**

Viewers can browse TV channels, search movies or on-demand services on Smart Center. You can arrange your favorite TV channels, you can see the details of your favorite program and watch videos by using VoD that are related to your favorite TV program on internet.

### **Multi IR RCU\***

In areas where there are multiple TVs installed, thanks to the Multi IR remote control unit, each remote can be assigned to a different TV with no signal interference from other remote controls. Up to four TVs can use this function simultaneously.

### **One Channel List**

There may be several programs which can be received from terrestrial, cable or satellite broadcasts. VESTEL HotelTV provides a convenient channel list management with a single channel list which consists all the programs regardless of broadcast type.

## **USB**

USB allows easy connection of external storage devices directly to your TV set. Via USB you can quickly connect external storage and access digital contents such as image files, video files and audio files. Simply connect your external memory source to USB port of Vestel TV to watch your favorite movies or to display photos that are stored on big screen of TV instead of being obliged to display these contents on the small screen of your computer. Plug yourself in bigger screen for higher pleasure!

## **BLUETOOTH**

Vestel Smart TV's Bluetooth feature helps you to connect your accessories to your TV via Bluetooth. You can connect your headphones, sound systems, compatible 3D glasses and Vestel Touchpad remotes to enrich your TV using experience. Bluetooth feature completely changes your classical TV using habits and a true item for you to multiply the joy you have while watching TV!

## **HDMI**

Through HDMI 2.0, you can experience the combination of pure sound and excellent visual content on your TV set. HDMI 2.0 is perfect and fastest source to transfer multimedia contents (video and audio) by providing clear pictures and clean sounds which results in an amazing user experience.

HDMI 2.0 provides, perfect source for potential UHD content and connection of various electronic devices to your TV set using only one compatible cable.

## **Auto-Data Erase**

Hotel TVs have the ability to clear all cache data for Smart TV applications such as Facebook, Twitter, Youtube, etc. This increases the security for hotel guests.

## **Anti-Theft Battery Cover\***

The anti-theft battery cover is a simple screw lock providing a fool-proof security to prevent the remote control battery from being stolen. It just makes your life easier.

# Basic Hotel Mode

## Hotel Mode Features

Basic hotel mode is particularly configured mode which makes usage of TV more specific and more accurate for commercial TV business branches thanks to the features it includes. Some basic features provide enhanced differentiation and to the point meet of expectations in hospitality applications which can be accessed via special controller combination.

## Wake-Up Alarm

In hotel mode, guests can set a wake-up time and TV can automatically wake up at the desired time and an alarm rings to wake you up. Concurrently, welcome image is shown on the screen while alarm is ringing.

## Welcome Screen

Commercial logo, message or default pictures can be used and displayed at the start-up of TV. These can be displayed if the hotel mode is enabled. This feature allows you to benefit from customization at the high levels.

## USB Cloning

USB cloning allows you to copy the settings of one TV to all other TV units in an easier way. For instance, you can copy the settings or channel list of one TV to high amounts of TV by using USB cloning. By this way, you can simply standardize all TVs without spending a lot of time. Helpful USB cloning feature prevents you from dealing with time-consuming installations and makes your life easier.

### Start-Up Position

This feature allows you to specify the starting channel when TV is switched on.

### Volume Limit And Fixed Volume Value

You can set the maximum and minimum values as you wish. If you set volume limit, you set the maximum value the volume can have. Moreover, when fixed volume enable is on, volume cannot be set to a value other than the fixed volume value.

### Custom Bootlogo

Custom Bootlogo feature allows you to choose your favorite photo such as your Hotel logo, favorite nature photo and more for the opening screen of TV. Meanwhile, customization opportunity will make your TV exclusive for you!

### OSD Disable On/Off

OSD disable allows you to control TV settings and prevents guests from changing the installation settings. Users cannot reach channel table or installation menu and that means channel list and installation settings cannot be changed.

### Last Status

When 'last status' feature is set to on, this feature enables TV to open with the closing status. Otherwise, TV opens with standby status.

## Product Line-up

In terms of design and technology, Vestel offers considerably wide lineup range in order to meet broad expectations of people from a TV. Elegant slim models including ultra narrow bezel designs, quality metal applications or fashionable stand designs are all positioned in attractive lineup of Vestel. Flexibility, design capability and know-how of high technology allow Vestel to offer the most suitable product for your demand that fits your personal delight as well.

XX550
